

Santhosh Kumar S

AWS | Azure | GCP

Sr DevOps Engineer

Contact: 8825876525

Email: itsmesanthosh.kumar08@gmail.com

Address: No 26/1 Golf Garden, Myladumparai, Chettipalayam, Coimbatore - 641201

Objective

To excel in a challenging environment where my technical expertise and leadership skills contribute to organizational success, while fostering innovation and ensuring continuous professional growth.

Professional Summary

Experienced DevOps Engineer with over 7+ years in IT, including 3+ years specializing in cloud platforms such as AWS, GCP, and Azure. Proficient in automating infrastructure provisioning using Terraform, implementing CI/CD pipelines, and managing containerized applications with Docker and Kubernetes. Skilled in monitoring and optimizing system performance, ensuring high availability and scalability across multi-cloud environments.

Key Skills

- Cloud Platforms: AWS, GCP, Azure
- AWS Services: EC2, IAM, VPC, S3, EKS, ECR, Cloud Watch, Cloud Trail, Lambda, Route 53, Cloud Formation.
- GCP Services: Compute Engine, IAM, VPC, Cloud Storage, GKE, Artifact Registry, Cloud Monitoring, Cloud Audit Logs, Cloud Functions, Cloud DNS.
- Azure Services: Virtual Machines, IAM, Virtual Network, Blob Storage, AKS, ACR, Azure Monitor, Log Analytics, Activity Logs, Functions, DNS, Azure Landing Zone.
- Version Control Systems: GIT, GitHub, Bitbucket, Azure Repo
- Containerization: Docker, Kubernetes, EKS, AKS, GKE
- Infrastructure as Code (IaC): Terraform, Helm
- Automation & Scripting: Ansible, Python, Bash
- CI/CD: Jenkins, GitHub Actions, Azure Devops Pipeline, Bitbucket Pipeline
- Monitoring: Prometheus, Grafana, ELK, CloudWatch
- Load Balancers: Nginx, AWS Elastic Load Balancers
- Networking: VPC, VPN
- OS: Red Hat, Ubuntu, Windows
- Security & Compliance: Trivy, SonarQube, IAM Policies, Security Groups, TLS/SSL, Vulnerability Scanning
- Build & Dependency Management: Maven, npm.
- Database Management: Mssql, MySQL, MongoDB.
- Collaboration Tools: Jira, Slack, Teams

Key Achievements & Deliverables

- Reduced deployment time by 60% using Jenkins automation.
- Cut production incidents by 50% by integrating SonarQube into CI/CD.
- Migrated workloads to EKS with zero-downtime deployments via Manifest files.
- Enhanced up by 40% with Prometheus & Grafana monitoring.
- Reduced critical CVEs by 85% using Trivy for image scanning.

Professional Experience

Cognizant Technology Solution

Infra Dev Specialist

Client: Virgin Media O2

Duration: 02nd Feb 2026 to Present

- Led the design, implementation, and optimization of end-to-end DevOps pipelines for Java Spring Boot applications (microservices), deploying across AWS, GCP, and Azure cloud platforms, leveraging Kubernetes for container orchestration.
- Built and automated CI/CD pipelines using Jenkins, GitHub Actions ensuring seamless builds, testing, and deployment of Spring Boot microservices across multi-cloud environments.
- Ensured code quality by integrating SonarQube for static code analysis.
- Integrated Maven into the pipeline for automating builds and deployments of Java Spring Boot.
- Deployed Java Spring Boot applications in Kubernetes clusters across AWS (EKS), Azure (AKS), and GCP (GKE), with Helm managing microservice deployments and configurations for consistent environments.
- Implemented Prometheus for system monitoring and Grafana for real-time dashboards.
- Managed centralized logging with Splunk and Cloud Watch.
- Integrated security tools like SonarQube Scans for early vulnerability detection in code.
- Established backup and disaster recovery strategies using AWS snapshots, GCP backups, and Azure Recovery Vault.

Insight Global

Cloud DevOps Engineer

Client: Walmart Tech

Duration: 14th July 2025 to 31st Jan 2026

- Managed AWS resources across multiple accounts and regions.
- Deployed and upgraded EKS, AKS, GKE, and clusters.
- Implemented cost optimization and billing management strategies.
- Automated infrastructure provisioning using Terraform, Ansible, and scripting.
- Developed CI/CD pipelines using GitHub Actions, Jenkins, Azure Devops.
- Monitored systems using Prometheus, Grafana, and Cloud Watch.
- Oversaw application deployments using Helm.
- Configured HPA to scale replica pods dynamically.
- Executed batch jobs and maintenance tasks as needed.

Additional Experience

- **Ankercloud Technology**
Duration: 25th November 2024 to 04th July 2025
- **iSolve Technology**
Duration: 22nd May 2023 – 16th November 2024
- **EagleView**
Duration: 28th October 2021 – 31st December 2022
- **Calpion Software Technology**
Duration: 28th May 2019 – 10th September 2021

Education

- B.E. in Mechanical Engineering (2013-2017) Kalaighar Karunanidhi Institute of Technology, Coimbatore.
- Perks Matric Higher Secondary School, Coimbatore (60%) (2012- 2013)
- Kendriya Vidyalaya, Coimbatore (68%) (2010-2011)

Certifications

- AWS Certified Solution Architect
https://www.credly.com/badges/9c821b7a-aeaf-4729-9707-08d42a96dfc0/public_url
- CKA(Preparing)
- GCP Associate
<https://www.credly.com/badges/cec55d4a-d0bb-454d-a75a-b71c79871e4d>

Interpersonal Skills

- Team collaboration and leadership
- Adaptability and resilience
- Quick learning and problem-solving

Additional Details

- Date of Birth: 08-09-1995
- Nationality: Indian
- Languages: English, Hindi, Tamil
- Hobbies: Photography, Painting, Badminton
- Marital Status: Single
